HOBBIES AND INTERESTS

- playing football
- scout guide

PERSONAL SUMMARY

Bilingual in French and Dutch, I graduated as a Business Engineer in Risk & Finance and I am passionate about finance, data science, and AI. As a Quantitative Analyst at BNP Paribas Fortis, I leverage my financial knowledge and programming skills in Python, PySpark, and R to develop AI- and ML-driven solutions that address business requirements in credit risk modeling. Alongside my professional work, I am pursuing a Postgraduate degree in AI from the KU Leuven.

WORK EXPERIENCE

Quantitative Analyst Stress-Testing Credit Risk

BNP Paribas Fortis | Brussels, Belgium

Oct 2023 - Present

- In charge of modelling PD and LGD components for stress-testing purpose, with regards to IFRS9 standards using R.
- Utilizing Python, PySpark, AI and PowerBI to implement a data and machine learning pipeline to retrieve and discover insightful information from the Stress Test and Transparency exercises conducted by the EBA.

Internship: Stress-Testing Data Analytics (STDA)

BNP Paribas Portugal | Lisbon, Portugal

Mar 2023 – Aug 2023

- Led a project where I implemented technical and functional controls in the databases, Utilizing Python and PySpark to develop these controls
- Created interactive dashboards utilizing Excel, VBA and Power Query to track and evaluate exposure at default (EAD) and loss given default (LGD) variations across multiple datasets. Presented these informative dashboards to the management

EDUCATION

Postgraduate certificate: Artificial Intelligence in Business and Industry

Katholieke Universiteit Leuven (KU Leuven)

Sep 2025 - Present
